

**NEXT  
LEVEL  
COACHING**

To whom it may concern,

Ref: Joe Eason – DF Coaching

Joe started doing 1-1 Football sessions with me roughly a year ago as he wanted to work on some specific technical details to enhance his game.

I am a full time Professional coach, combining running a coaching School with working for Middlesbrough Academy, and hold the UEFA A license accreditation.

I have nothing but the utmost respect for Joe as a person and a player, the way he has conducted himself at all times since I met him has been exemplary.

Technically Joe has a lovely feel for the ball, he can manipulate it easily and freely between both feet and can perform technical actions to a high and game realistic level.

He is unorthodox in style and stature and uses it to great effect. He analyses his performance and provides feedback to me on a detailed and capable level of tactical understanding for his age.

Physically he is for want of a better term 'a machine' with strength - - pace - power and stamina to boot. He fits the modern profile of being athletically capable to play at the intensity the game requires.

Socially Joe is extremely analytical, he is polite and has good humor. He would fit into a varied background dressing room with ease. He is extremely likeable and has leadership qualities coaches look for.

Psychologically Joe has an inner drive and confidence where he knows he's on a journey to achieve whatever the best outcome may be for him. He has confidence in his ability but never crosses that line into arrogance with it. He is very self-aware and conscientious.

I have no doubts at all in providing a strong reference for Joe. Any team would be lucky to have him.

Regards  
Danny Fowler
